Chocolate Flavor for Ice Tupps Popsicles

Ingredients

- 1 quart chocolate milk
- 2 egg yolks
- 2 level rocker scoops of sugar

Instructions

1. Put all ingredients into the 50 oz. handolier.
2. Shake to combine.
3. Pour into ice tups (popsicle molds).
4. Freeze for delicious fudge cycles (fudgsicles).

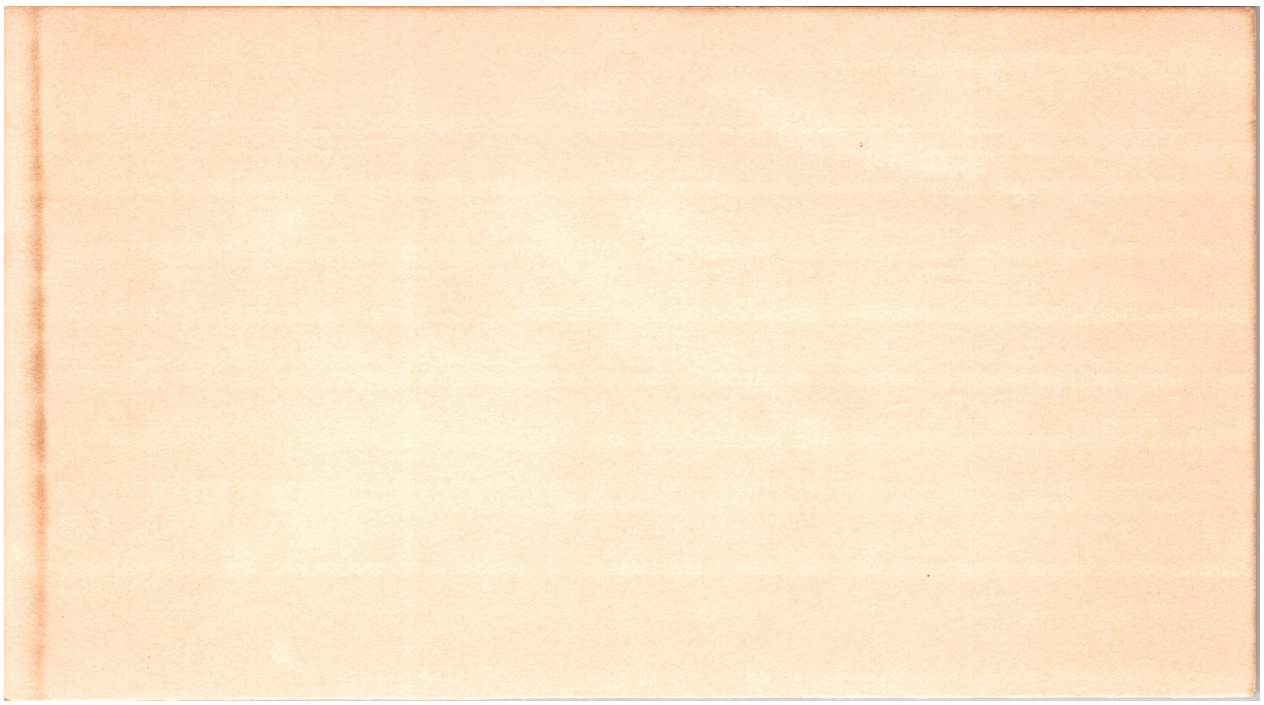

Editor's Notes

- **"POPSYCLES"** - clear phonetic spelling of "popsicles"; transcribed as written in title, corrected to "Popsicles" in Markdown heading for clarity.
- **"rocker scoops"** - this appears to be a proprietary or colloquial term for a measuring scoop used with the specific equipment described. The exact volume is unknown. The term is transcribed as written.
- **"handolier"** - likely a brand name or trade term for a shaker/mixing container used with the Ice Tupps popsicle-making system. The 50 oz. size is noted as written.
- **"ice tups"** - the Ice Tupps brand popsicle mold system, a mid-century product. "Tups" appears to be the brand's spelling for their molds/tubes.
- **"fudge cycles"** - phonetic spelling of "fudgsicles"; transcribed as written.

CHOCOLATE FLAVOR FOR ICE TUPPS POPCYCLES

1 quart chocolate milk
2 egg yolks, 2 level rocker scoops of sugar,
Put all ingredients into 50 oz. handolier,
shake and pour into ice tups for delicious
fudge cycles.
